

DURA[®]
Fitted Garages

If you've a
passion for
**all things
green**

Creating Horticultural Heaven

We've 'raked' through our full range of garage cabinets, wall storage and flooring ranges to create a solution that provides the perfect place to do all of your potting and propagating.

To kick start this unique room, we've combined a selection of cabinets with a heavy-duty beech worktop to provide the perfect levels of storage and work-space. At the back of the cabinets we've then used a series of square peg panels to allow you to conveniently store small tools within arm's reach whenever you need them.

For the storage of larger tools and machinery we've fitted out the interior walls with practical sections of wall mounted Storewall. These panels allow you to get everything that would normally gather on the floor up and onto the walls, freeing the garage of clutter and creating more space within your gardener's room. It also ensures you haven't got to search high and low for that one tool you can never find, as everything has a home.

To finish of this potting paradise, Dura have finished the floor of the garage in a full run of textured porcelain floor tiles. This particular flooring solution provides an extremely stylish and contemporary flooring solution and creates a practical anti-slip floor covering, ensuring you have a comfortable and safe environment to work in.

The Ultimate **Gardener's** Garage

We understand that everybody has different needs, but to show you how versatile our products can be we have created an example layout for the 'perfect' gardener's garage. This garage interior can easily be added to or adapted to suit your exact requirements to create *your dream garage*.

Porcelain floor tiles

Hard-wearing tiles, as used in professional workshops. Easy to clean and available in many colours and finishes

Tall Cabinet

The height of this cabinet provides a convenient place to hang overalls and clothing

Plywood Worktop

A heavy duty surface that provides extra workspace

Square peg panels

Provide extra storage for small hand held tools through the use of a range of hooks and clips

Wash-up area

Integrated sink, towel dispenser and waste bin ensure a clean and safe working environment

StoreWall

Flexible wall mounted storage to house both small and bulky items
